

## Panorama is proud supplier to Drivetel & Vodafone Portugal

Panorama antennas is proud to have been selected as antenna supplier to Drivetel a Portuguese telecommunications integrator. Through Drivetel, Panorama has provided antennas for a 4G LTE DAS system in the offices of Vodafone Portugal.

Over 200 CM-7-60-NJ and CMMG-7-60-NJ antennas were supplied for installation inside the Vodafone Portugal head office and stores for improved telecommunications through small DAS networks. The CM-7-60-NJ was chosen for smaller locations for its high gain and ease of installation. The CMMG-7-60-NJ offers additional wideband MIMO coverage while remaining small, discreet, and durable.

In addition to the main inbuilding installation, 25 DMM antennas were supplied to Vodafone for promotional purposes and given to VIP customers to provide a reliable MIMO 4G connection to a 4G dongle thereby improving upload and download speeds.
